

## **Exactech Sharpens Focus on Technology with Active Intelligence® *Expansive Technology Platform Delivers Smart Solutions for Joint Replacement***

**GAINESVILLE, Fla. (Nov. 23, 2020)** – [Exactech](#), a developer and producer of innovative implants, instrumentation and smart technologies for joint replacement surgery, announced today the launch of its [Active Intelligence®](#) platform of technologies that spans the entire journey of patient care. The company plans to aggressively expand its smart technology portfolio to better connect surgeons and patients with personalized, data-driven tools.

Active Intelligence defines Exactech’s strategic commitment to helping surgeons better engage with patients and peers, solve challenges with predictive tools and optimize how surgeons perform.

According to Exactech’s Chief Executive Officer Darin Johnson, “For more than 35 years, our company has focused on helping surgeons improve patient outcomes. With Active Intelligence, we are now expanding our strategic focus to deliver a comprehensive platform of uniquely accessible technologies to assist surgeons throughout the entire journey of patient care. Our practical solutions will help monitor patient recovery, connect surgeons and patients and unlock insights that will augment surgeons’ decision making in ways our industry has never seen.”

Exactech will unveil its pipeline of Active Intelligence solutions in the coming days and weeks. The platform builds on [ExactechGPS®](#), the industry’s first and only no-capital-cost navigation system with verified implant placement guidance for both knee and shoulder surgery, and previously announced innovations including the [Shoulder Planning App](#), the [VERASENSE® shoulder sensor](#) and the [Vantage® Ankle Patient-Specific Instruments](#).

Exactech will introduce surgeons to Active Intelligence and unveil its near-term pipeline of innovations during a Dec. 3, 2020 webinar. Surgeons may register at [www.exac.com/ActiveIntelligenceWebinar](http://www.exac.com/ActiveIntelligenceWebinar).
